CHATCO Feature List

Jeepney tracking, cashless fares and safety for the Calumpit-Meycauayan route. Features grouped by role.

Public Website and Accounts

What anyone can see or do before signing in.

Landing and info pages

- **Landing page** - Introduces CHATCO, its features, safety tools and the Calumpit-Meycauayan route.
- **FAQ chat bubble** - A scripted question-and-answer panel; answers are managed by admins.
- **Terms of Service and Privacy Policy** - Legal pages linked from the site.

Accounts

- **Commuter sign-up** - Registration with email verification code and optional valid ID upload; admins approve or reject.
- **Login** - One login for commuters, conductors and admins; each role lands on its own app.
- **Forgot / reset password** - Reset by emailed verification code.
- **Set new password** - First-login password change for accounts created by an admin.

Shared ride link

- **Share My Ride page** - A public link family or friends open to follow a commuter's live ride on a map.

Commuter

Daily jeepney riders on the route.

Ride and tracking

- **Live map** - Shows jeepneys on the route in real time with unit details (plate, crew, capacity).
- **Nearby units** - Lists the closest jeepneys and their distance.
- **Location finder** - Search a place or stop on the map.
- **Pick Me Up (hail)** - Signals a nearby jeepney that the commuter is waiting; the conductor accepts or rejects.
- **Fare guide** - Look up the fare between two stops, including the discounted fare.

Payment

- **QR fare payment** - Scan the conductor's QR to pay the fare.
- **GCash payment** - Cashless payment through GCash with checkout and return flow.
- **Cash receipt claim** - Scan a printed receipt QR to link a cash ride to the account.
- **Group payment** - One payer can cover several passengers; each rider sees the shared receipt.
- **Payment history** - List of past payments with totals, filters (today, week, month) and a date or date-range picker.

Rewards

- **Loyalty rewards** - Earn a free-ride voucher after a set number of paid rides.
- **Voucher wallet** - View and use free-ride or discount vouchers when paying, including for a group.

Safety

- **Emergency SOS** - Slide-to-send panic alert with live location to admins; protected against misuse.
- **Share My Ride** - Create or stop a live location link for family and friends.
- **Lost and Found** - Browse found items, watch items, submit a claim with proof photos, and track or cancel claims.

Feedback

- **Ride feedback** - Rate the ride and the crew after a paid ride, or by scanning the unit QR.

Profile and discounts

- **Profile** - Edit details, profile photo with cropper, and light or dark theme.
- **Change email / password** - Verified by emailed codes.
- **Discount application** - Apply as Student, Senior Citizen or PWD with proof; admins review it.
- **Student renewal** - Renew student status each term or switch back to regular, with reminders.
- **Announcements** - Notification bell with admin announcements and unread count.

Conductor

On-board staff running a shift.

Starting a shift

- **Unit verification** - Pick the jeepney and driver for the day, then start the shift.
- **One device per shift** - The shift is locked to one device; admins can recover it if a phone is lost.

During the shift

- **Live location** - The conductor's phone broadcasts the jeepney's position to the map.
- **Capacity and break status** - Mark the jeepney as full or available, and go on or off break.
- **Hail requests** - See waiting commuters on the map and accept or reject Pick Me Up requests.
- **Record fares** - Record cash fares or start a GCash QR payment, including group payments and discounts.
- **Fare calculator** - Quick fare lookup between stops.
- **Printed receipts** - Receipt with reference number and claim QR, with optional auto-print.
- **Transaction history** - Shift transactions with payment method and date filters.
- **Offline support** - Connection banner; cash fares recorded offline sync when back online.
- **Emergency SOS** - Slide-to-send panic alert to admins.

After the shift

- **End-of-day close-out** - Close the shift and review totals.
- **Remittance** - Submit the day's remittance, view the official report and remittance history.
- **Remittance reminders** - Reminders until an auto-closed shift is remitted.
- **Metrics and ratings** - Earnings, trips and commuter ratings.
- **Settings** - Profile photo, account settings and clear cache.

Admin / Operator

Back-office staff running the fleet and the system.

Overview

- **Dashboard** - Summary of today's operations with quick previews.
- **Analytics** - Ridership, revenue and payment trends over chosen date ranges.
- **Live monitoring** - Fleet on a live map, overspeeding events and commuter demand zones.

People and fleet

- **User management** - View, edit, suspend or unsuspend users and see their activity.
- **Registrations** - Approve or reject commuter sign-ups; view rejected history.
- **Discount applications** - Review Student, Senior and PWD applications.
- **Fleet management** - Manage vehicles, drivers (with license images) and conductors, including shift logs.
- **Conductor accounts** - Create accounts, disable them or reset credentials.
- **Admin accounts** - Add other admins.

Money

- **Receipts / transactions** - Search all transactions and receipts.
- **Remittance** - Review conductor remittances and record cash declarations.
- **Fare matrix** - Edit stops and fares along the route.
- **Financial rules** - Base fare, commuter discount rate and loyalty program threshold.
- **Voucher generator** - Create batches of free-ride or discount voucher codes.
- **Receipt settings** - Choose what appears on printed receipts and auto-print.

Operations and safety

- **Routes** - Draw and edit the route, save drafts, publish and keep versions.
- **Operations rules** - Overspeeding limit, max shift duration and remittance reminder timing.
- **SOS alerts** - Receive, acknowledge and resolve commuter and conductor SOS alerts.
- **Safety notifications** - Configure which alerts and notices are sent.
- **Lost and Found** - Log found items with photos and location, review and approve or reject claims, release and close items.
- **Feedback** - Read commuter ride and crew feedback.

Communication and system

- **Announcements** - Create, edit and archive announcements for users.
- **FAQ management** - Edit the questions and answers in the website FAQ.
- **Activity logs** - Audit trail of system actions with export.
- **App configuration** - Maintenance mode with reason, and whether a valid ID is needed at sign-up.
- **Profile and security** - Admin profile photo and password change.
